Wounded Warrior Homes is a 501(c)3 charitable non-profit organization providing transitional housing to single post 9/11 combat veterans with Traumatic Brain Injury (TBI) and Post-Traumatic Stress (PTS). For the men and women who serve our country with Traumatic Brain Injury and Post Traumatic Stress, a home is the simplest, yet most essential item in their lives. It is a comfort and a hideaway at the end of a long day, and a place to call their own that gives them independence.

Wounded Warrior Homes looks to provide homes for veterans who served to protect ours. Veterans transitional housing is essential to service members returning from active duty. Many service members do not have the option to move home to continue their outpatient medical care and access the services they need. Families may live several hours from the closest VA Hospital or they may not live by one at all. By providing affordable transitional housing and hands-on resources, Wounded Warrior Homes provides a defined path for each member to transition from active-duty military service to a veteran of foreign wars.

Help for all veterans, not just returning ones.

Mike Hodgkin works with the Dept, of Labor; is onsite at MCC every Tuesday to provide veterans' counseling.

Two types of college funding for veterans: Post 9/11 GI Bill and the original bill known as the GI Bill Chapter 30.

The Post 9/11 Bill pays tuition to any certified college or university in the state. It also offers a monthly income that varies and funding for housing, based on the ZIP code or area where a veteran lives. With the Post 9/11 Bill, some veterans could receive as much as \$1,800 a month.

The original GI Bill pays for school and typically pays about \$1,321 a month, as long as the vet is enrolled full-time. Part-time student-vets are still eligible, but usually get only about half of that amount. MCC strong in medical field.

Hodgkin also counsels for emotional issues after service and helps create a case plan to get them appropriate counseling.

A rental assistance program for homeless vets in Mohave County. HUD issues grants to the county to fund the VA Supportive Housing, or VASH program. It covers the cost of rental assistance in the private rental market to house 91 homeless vets.

Vets must be willing to participate in case management services to work on mental health, substance use, legal, or vocational objectives, depending on each persons' needs. Rental vouchers are provided as long as the VA reports the vets are in compliance. Participants are required to contribute 30% of their income towards monthly rent, while HUD covers the remaining cost.

Mohave County previously served homeless vets through its Homelessness Prevention Rapid Rehousing (HPRR) program. That program no longer exists.

While in the program, veterans are required to save money (if they have a job or are receiving any kind of social security or other financial benefits) so that they can be self-sufficient upon exiting the program. Veterans who are unemployed but able to work will meet with the Employment Specialist to build/improve their resume, practice interviewing skills, connect with local employment resources, and complete applications and job interviews. Veterans who are unemployed but not able to work will be required to apply for social security/other benefits.

Veterans in the program must be willing to submit to random or for-cause breathalyzer and urine screens. Veterans must agree not to use alcohol or illegal drugs while in the program. Veterans may not be eligible for the program if they are actively dependent or abusing alcohol or illegal substances.

The program is not able to admit registered sex offenders, veterans with active warrants (in any state), or veterans who need a higher level of medical/mental health care than the program is able to provide.

Veterans will be assigned to a specialized primary care team called H-PACT, which has been formed to address the specific needs of the homeless population. Health care will be provided both at the CBOC in Kingman and at the VA Hospital in Prescott.

If you have a veteran who could utilize this program, call Nathan Rosato or have the veteran call him to schedule an intake/assessment appointment to determine if he is eligible for the program. After being screened for eligibility and assessed, veterans will then complete the NAZCARE intake process before being officially admitted into the program.

SOCIAL SECURITY BENEFIT FOR VETERANS

There is a special provision of the Social Security law that Veterans may benefit from. Veterans may have earned entitlements for Active Duty service between January 1, 1957 and December 31, 2001.

Basically, veterans are entitled to an additional \$300 credit toward their Social Security earnings for every three months they were on Active Duty between January 1, 1957 and December 31, 2001 up to a maximum of \$1,200.00 per year of Active Duty service. This special provision of the Social Security law is above and beyond the military Basic Pay which was recorded on W-2s for each year of Active Duty.

The DD214 discharge document is used by the Social Security Administration to credit this special provision toward Social Security earnings.

However, you must take your DD214 to your local social security office and request this additional

credit toward your social security earnings.

Another benefit is the **Aid and Attendance Benefit**, which provides payment to caregivers of veterans. Veterans and survivors who are eligible for a VA pension and require the aid and attendance of another person, or are housebound, may be eligible for additional monetary payment. These benefits are paid in addition to monthly pension, and they are not paid without eligibility to Pension.

Since Aid and Attendance and Housebound allowances increase the pension amount, people who are not eligible for a basic pension due to excessive income may be eligible for pension at these increased rates. A Veteran or surviving spouse may not receive Aid and Attendance benefits and Housebound benefits at the same time.

Veterans Angels can assist with the Aid and Attendance Benefit www.vetangels.org, 888-319-1117.

HOMELESS SERVICES

SHELTERS:

Types of Shelters:

Day Shelters supplement homeless and low-income people when the shelter their staying in only offers shelter on an overnight basis. Case management is often provided and sometimes there are laundry and shower facilities. Meals and basic hygiene may also be offered. Almost all day shelters provide their services free of charge. Any emergency or homeless shelter that allows clients to stay during the day is also classified under this category.

Emergency Homeless Shelters provide short- term relief for the homeless and low-income. Usually there is a maximum stay of 3 months or less. Many of these shelters ask clients to leave during the day. Meals and other supportive services are often offered.

Halfway Housing helps transition individuals and families from shelters or homelessness to permanent housing. Length of stay is usually anywhere from 6 months to 2 years. Residents are often required to pay at least 30% of their income toward program fees. Sometimes the money they pay in fees is returned to them when they leave. Any emergency or homeless shelter that allows their clients to stay more than 6 months is also classified under this category.

Permanent Affordable Housing is a long-term solution for housing. Residents are often allowed to stay as long as they remain in the low-income bracket, but are sometimes limited to 3 - 5 years. Residents pay no more than 30% of their income toward rent. Emergency shelters, homeless shelters, and transitional housing programs that allow their clients to stay without a maximum stay are also classified under this category.

Drug And Alcohol Rehab programs are intended to treat alcohol and/or drug dependency. The cost of participating in one of these programs and the method of treatment range significantly.

The only homeless shelter in Mohave County is the Cornerstone Mission in Kingman. They may have a waiting list, so call before going to them.

The desired affect is this will enable them to deliver the high standards of discipline, dress, teamwork and the leadership skills. Cadets are required to maintain currency in Safety education and progress satisfactorily in the Cadet Program by working to earn promotions as they master each leadership concept.

Qualified pilots joining as senior members can become CAP pilots and fly for free on missions, operational exercises and when giving orientation flights to cadets. Other volunteers are required as airborne mission observers / scanners and in support roles on the ground in the Mission Base Incident Command Post at Lake Havasu City Municipal Airport.
