

Providers of Homeless Veteran Services,

Arizona is home to over half a million service members, veterans & their families. During these challenging times, it is more important than ever that our military and veteran community is interconnected and supported.

**Be Connected is a nationally-recognized statewide partnership** that engages, equips and connects our community in support of all who serve. This unprecedented collaboration between federal, state, and community organizations includes hundreds of organizations and thousands of people across Arizona who provide a myriad of resources in communities statewide.

In keeping with the Arizona Department of Veterans' Services **Arizona Action Plan to End Homelessness Among Veterans**, the signatories request that all public and private sector organizations who serve the veteran homeless community or receive funding from the Arizona Veteran StanDown Alliance become a **Be Connected Partner Organization**. The voluntary partnership process is based upon guiding principles and ethical considerations created by our community. The goal is to equip public and private sector organizations with the information, training and technical assistance needed to effectively care for, serve, support, connect and employ service members, veterans & their families.

**All training and technical assistance for the partnership process and ongoing membership is provided at no cost** and once your organization is a partner, your resources, career opportunities, volunteer opportunities and more can be mapped on our web platform for matching service members, veteran, and their families with the services or resources that your organization provides.

We encourage your leadership to join our leadership in this effort.

**Begin the Be Connected Partner Organization process:**
